Siskiyou County Resource Advisory Committee to Meet January 17 at the Klamath National Forest Supervisor's Office

Yreka, CA.,—The Siskiyou County Resource Advisory Committee (RAC) will meet on January 17, 2011 in the large conference room at the Klamath National Forest Supervisor's Office, 1312 Fairlane Road, Yreka. The meeting will convene at 4:00 p.m. and usually ends before 8:00 p.m. The public is invited to attend and make comment.

The best way to access the meeting will be through the back door of the building (along Mill Street) where there is plenty of parking.

The RAC is federally sanctioned by the Secretary of the Department of Agriculture and was formed as a result of the Secure Rural Schools and Community Self-Determination Act of 2000. The RAC is a local advisory committee that recommends projects to federal land managers which will benefit resources on public lands. The fifteen member group represents a cross section of county communities, industries, schools, environmentalists, and local government. Three new members will be filling vacancies this year on the Siskiyou County RAC. Paul Chapman, representing the commercial timber industry, Marc Williams, representing local environmental organizations, and Frank DeMarco, representing the public-at-large will complete the membership for the RAC.

The agenda includes project updates and financial status, public comment period, and review of new project proposals to be considered by the RAC. Submissions for project proposals are still being accepted. Applications received by the 1st of the month will be reviewed at that month's meeting.

For more information on the Siskiyou County RAC call Kerry Greene, Klamath National Forest, (530) 841-4484.
